The delegate of Russia Federation would like to urge all member states to vote for this clause. The clause although mentions about criminal and security related institutes also focuses on establishing rehabilitation centre for civilians who are affected by cruel crime activities. Not only punishing those who perpetrated peace violations but also protecting those who were victimised, the clause itself covers various aspects of resolving devastating ramifications of ethnical conflicts. Thus, the delegate of Russia Federation once again urges all member states to vote for this clause, as security council is responsible for both world security and its people.
